

# Stellar Cyber RiskShield

Cyber Insurance Program for MSSPs

Cyber insurance has become crucial today as companies face increasing cyber attacks, often leading to significant financial and operational damage. However, many businesses need help finding affordable protection with insurers raising premiums and tightening coverage requirements.

As a Stellar Cyber Managed Security Service Provider partner, you have the unique opportunity to help your customers meet these challenges by offering exclusive cyber insurance rates and benefits they couldn't secure on their own. This safeguards their operations and enhances their trust and loyalty to your services.

## Stellar Cyber RiskShield Benefits

- **Exclusive Cyber Insurance Rates:** Offer your clients exclusive cyber insurance rates. Provide financial incentives based on verified security coverage.
- **Comprehensive Security Coverage Reporting:** Utilize Stellar Cyber's Coverage Analyzer to assess security posture. Generate detailed reports demonstrating protection across EDR, MFA, firewall, and more.
- **Increased Marketability, Customer Loyalty, and Retention:** Differentiate your services with a valuable, non-monetized add-on. Strengthen client relationships by offering financial benefits and peace of mind, increasing long-term loyalty.
- **Streamlined Insurance Process:** Gain expert underwriting and regulatory compliance support. Navigate state and local laws with ease through access to wholesale brokers.

## How RiskShield Works

- **1. Leverage the MITRE ATT&CK® Coverage Analyzer:** When a customer wants to explore the insurance options available via RiskShield, you will query their installed connectors (EDR, MFA, FW) using the MITRE ATT&CK® Coverage Analyzer, which aligns with the MITRE ATT&CK® framework to assess techniques and tactics the customer covers.
- **2. Generate detailed coverage reports:** Once the Analyzer runs, all data sources will be enumerated, and comprehensive security coverage reports will be produced.
- **3. The customer gets exclusive insurance offers:** Insurance providers get the security coverage data to provide your clients exclusive cyber insurance rates based on the robustness of their security coverage.

# Stellar Cyber SecOps Platform for MSSPs

Stellar Cyber SecOps Platform for MSSPs includes NextGen SIEM, TIP, UEBA, NDR, IDS, malware analysis, response orchestration, and more under a single license, helping MSSPs deliver comprehensive security services for IT and OT environments.

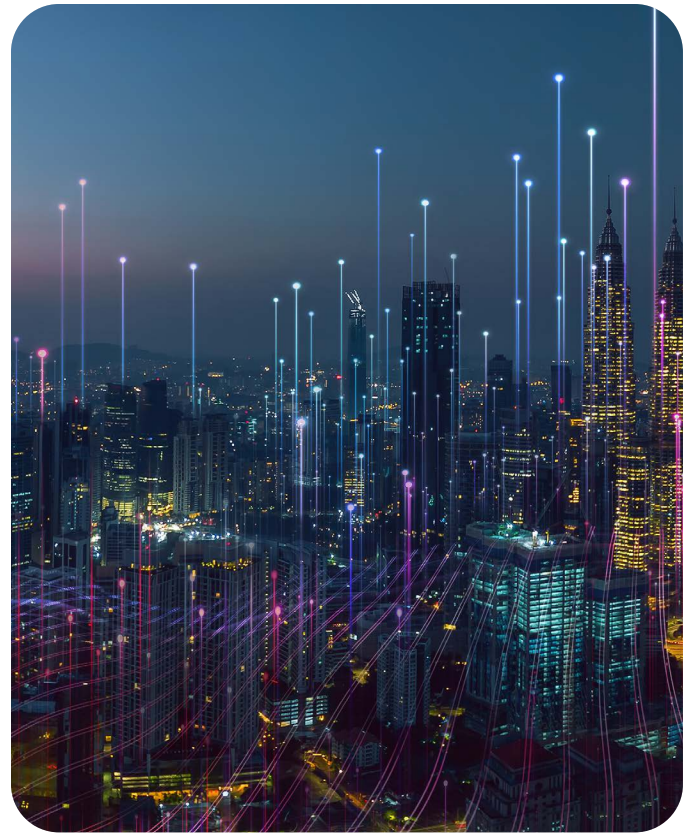

With Stellar Cyber, you can automatically ingest, normalize, and analyze your customers' data to identify active threats in their IT and OT environments. With over 400 pre-built integrations, you can quickly integrate virtually any tools your customers use into the platform. If you need a new integration to satisfy a customer's need, we will deliver it free of charge. That is our commitment to you.

## From Detection Through Response

Stellar Cyber delivers comprehensive threat lifecycle management, from initial detection through threat correlation and response. With Stellar Cyber, your team can complete their investigations and responses from a single platform, boosting productivity and efficiency.

## With Stellar Cyber, you can:

- Capture and analyze all security-related data in a single repository.
- Correlate security alerts with native threats detected by Stellar Cyber.
- Contextualize all alerts and incidents via integrated 3<sup>rd</sup> party threat intel feeds automatically.
- Respond from the platform manually or in an automated fashion.

## Stellar Cyber Benefits

- Deliver the security services your customers need affordably and efficiently.
- Eliminate barriers to expanding your addressable market.
- Drive increased efficiency across your security operations team, enabling customer growth with existing staff.
